Team handout

What to do when there's nothing to do

Team members: Here are some ideas for how to fill down time during your shift.

1. Check on all patients	
\square Ensure that all patients are clean, warm, and dry.	3
\square Check their weight and temperature.	
lue Take them on potty walks.	
\square Give medications when due.	
\square Prepare medications to send home with clients.	
Ask technicians what you can help with.	
2. Sort through products and supplies	
Check treatment areas, pharmacy, and exam rooms:	
Check syringes and needles, heparin syringes,	
and catheters.	
Keep bandage trays full.	i
Check stock of cotton swabs, gauze, ear cones, etc.	i
Make sure solution containers and spray bottles	ł
are full.	i
\square Fill soap dispensers and paper towel holders	1
if necessary.	i
	ı
3. Clean the clinic	1
3. Clean the clinic Clean exam rooms.	1

5. Check the dental cart

- Verify stock of dental diet samples, oral health chews, and other product giveaways (make sure products are labeled and bagged according to size).
 - Cut bandanas into three sizes (small, medium, and large) to send home with patients.

6. Replenish supplies of client handouts and forms

- Stock brochures in the waiting area.
- Make sure these documents are in the treatment area: hospital day sheets, surgery sheets, home care instructions.

7. Work with sterilization and cleaning instruments

- Clean, vacuum, and mop surgery suite.
- Clean surgical instruments.
- Put surgery packs together.
- Run autoclave.
- Ask veterinary assistants for help.

If you still have down time, ask the practice manager for more fun tasks—or you can wash walls!
